

## EXTRA HELP WITH DRUG PLAN COSTS

Almost 1 in 3 people with Medicare will qualify for extra help covering almost all of the costs of their drugs. Most people who are eligible for this extra help will **pay no premiums, no deductibles, and no more than \$5 for each prescription.**

When you are helping people with Medicare prescription drug coverage, ask them if their income and resources meet the guidelines shown in this folder on “What You Need To Complete The Application For Help With Medicare Prescription Drug Plan Costs.” There is a worksheet on the back for recording the necessary information. This folder also has a sample of the application form. People can also apply on line at [www.socialsecurity.gov](http://www.socialsecurity.gov) or can get an application by calling the Social Security Administration at 1-800-772-1213.

This folder also contains charts showing the drug plan costs when people qualify for the extra help.
